

2016 OPERATIONS AT A GLANCE

Contura Energy is a private, Tennessee-based company with affiliate mining operations across multiple major coal basins in the states shown below. With customers across the globe in 16 countries, high-quality reserves, and significant port capacity, Contura Energy reliably supplies both metallurgical coal to the steel industry and thermal coal to generate power. Contura Energy is committed to operating safely, efficiently and responsibly with customer service second to none, and an ongoing focus on continuous improvement.
