

2017 OPERATIONS AT A GLANCE

Contura Energy is a private, Tennessee-based coal supplier with affiliate mining operations across major coal basins in the states shown below. With customers across the globe, high-quality reserves, and significant port capacity, Contura Energy reliably supplies both metallurgical coal to produce steel and thermal coal to generate power. Contura Energy is committed to operating safely, efficiently and responsibly with customer service second to none, and an ongoing focus on continuous improvement.
